

CABILDO

BY
ERIC SOLÈ

Artemide®

ERIC SOLÈ

With a desire for overall simplicity, French designer Eric Sole created functional, futuristic works of art with soft curves which look as good in the dark as when illuminated.

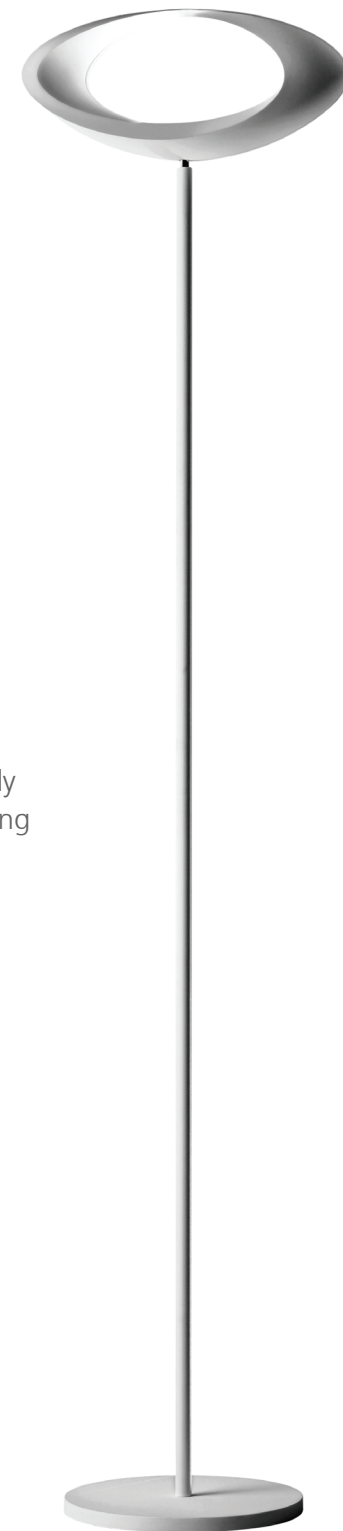

ELEGANT

Cabildo's internally lit pebble-shaped sculptural form intrigues the eye. It looks equally astonishing lit or unlit. The combination of Cabildo suspension, floor, and wall fixtures come together to form a creative consistency to any space, serving as a seamless, sleek and simple design theme.

SEAMLESS

Made in die-cast aluminum with a white painted finish, Cabildo's body lamp creates the illusion of a flowing ring of light with its winding form and indirect light shapes.
