## MIMESI FLOOR / MIMESI LAMPADAIRE

"Light, architectural space and natural landscape are the main elements of this project, based on principles of reduction of energy and materials. Through the dematerialization of volumes and mimetic transparency, and thanks to a slim recycled aluminum structure and methacrylate body, Mimesi does not hinder the vision, but silently integrates with the surrounding environment".

À travers la dématérialisation des volumes et la transparence mimétique et grâce à une fine structure en aluminium recyclé et à un corps en méthacrylate, Mimesi ne gêne pas la vision et s'intègre silencieusement dans l'espace environnant».*
