BY  
CARLOTTA DE BEVILACQUA  
PAOLO DELL'ELCE

**CARLOTTA DE BEVILACQUA**

---

Architect, designer and above all humanist, Carlotta de Bevilacqua has been a force in contemporary lighting since the 1980's. A pioneer in LED research and implementation, she created the concept "The Human Light" in which lighting encourages not only the well-being of those who live, work and interact with it, but also the planet.

As interested in science of light as the sensory experience, de Bevilacqua seeks to create synergy between products and users through accessible, experimental design. A life-force at Artemide for nearly 4 decades, in addition to her own studio she oversees Danese Milano creating minimal, yet elegant, products which further complement the built environment.

In addition to widespread recognition for her work, in 2011, she received a Red Dot Design Award for the Algoritmo and Copernico.

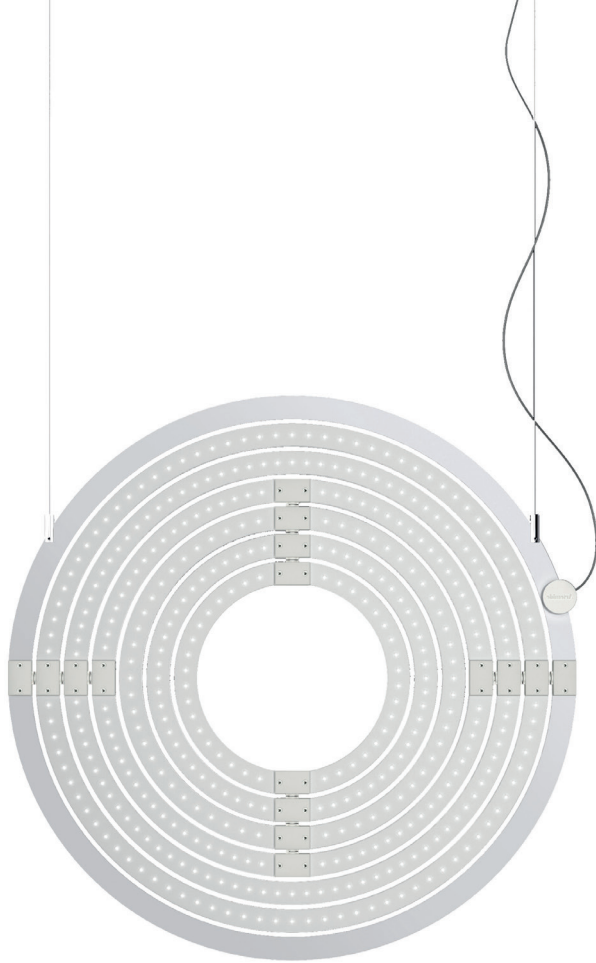

**PAOLO DELL'ELCE**

---

Born in Italy in 1983, Paolo Dell'Elce is an Italian industrial designer and creative director who has worked closely with Carlotta de Bevilacqua on interior and design projects such as the best-in-class, ultra-low-wattage LED -based Reall and Copernico, a flexible lighting fixture made from a single sheet of aluminum which the end user can configure as they wish.

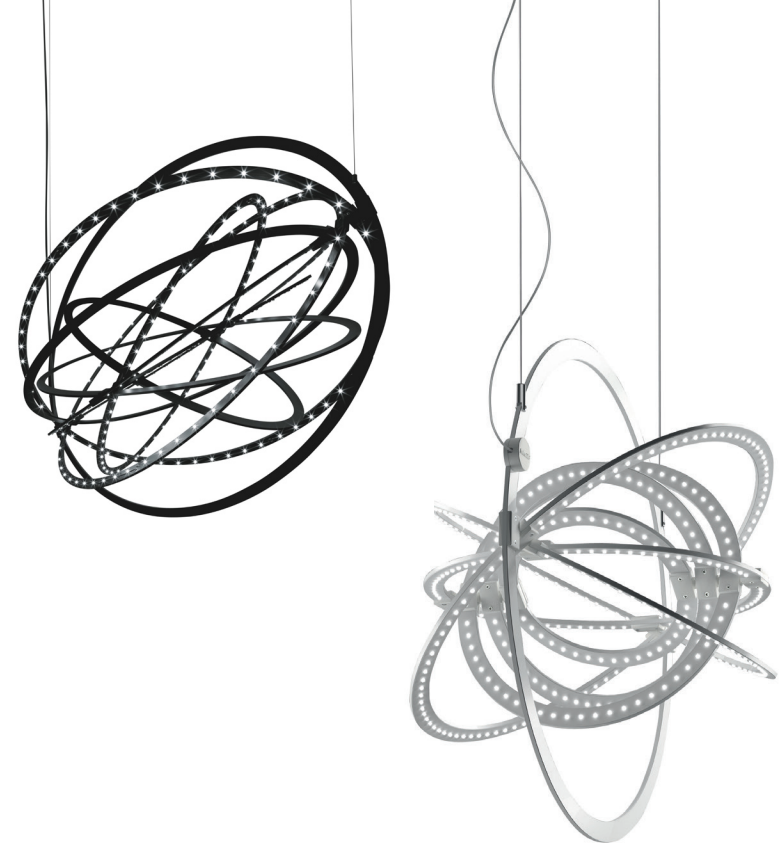

## **ECO-FRIENDLY**

Eco-friendly in terms of manufacturing, from conception to materials used, to LED technology, Copernico is crafted from a single aluminum plate. The device also folds flat to ensure optimized packaging.

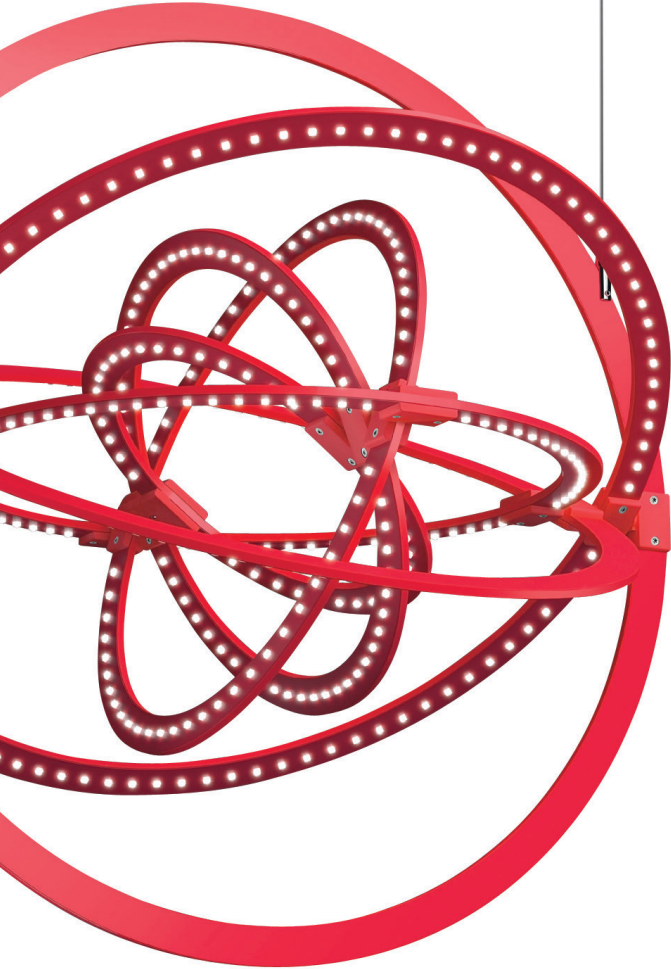

## INNOVATION

Inspired by cosmology, Copernico's complexity features nine concentric mobile ellipses that support a circuit of 384 white LEDs, having current travel through its junction from one ring to another. The ellipses rotate independently on two different axes, enabling the light emission to be directed and numerous stellar spatial configurations.

## RADIANCE

---

Copernico's elegant design radiates with a celestial presence. It adorns any modern space not only with its ingenious circuit board, but also with customizable brilliance.

# COPERNICO suspension

## EMISSION

indirect, direct and diffused

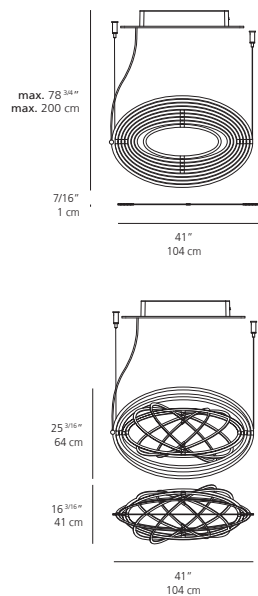

## LIGHT SOURCE

LED  
30W 3000K >80CRI

## DIMMING FEATURE

dimmable

## DIMENSIONS

## FINISH

■ silver grey  
■ black

## CERTIFICATIONS

c.UL.us listed

# COPERNICO 500 suspension

## EMISSION

indirect, direct and diffused

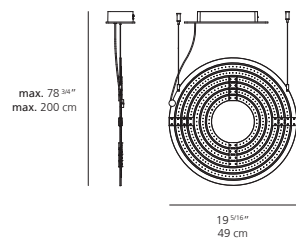

## LIGHT SOURCE

LED  
23W 3000K >80CRI

## DIMMING FEATURE

dimmable

## DIMENSIONS

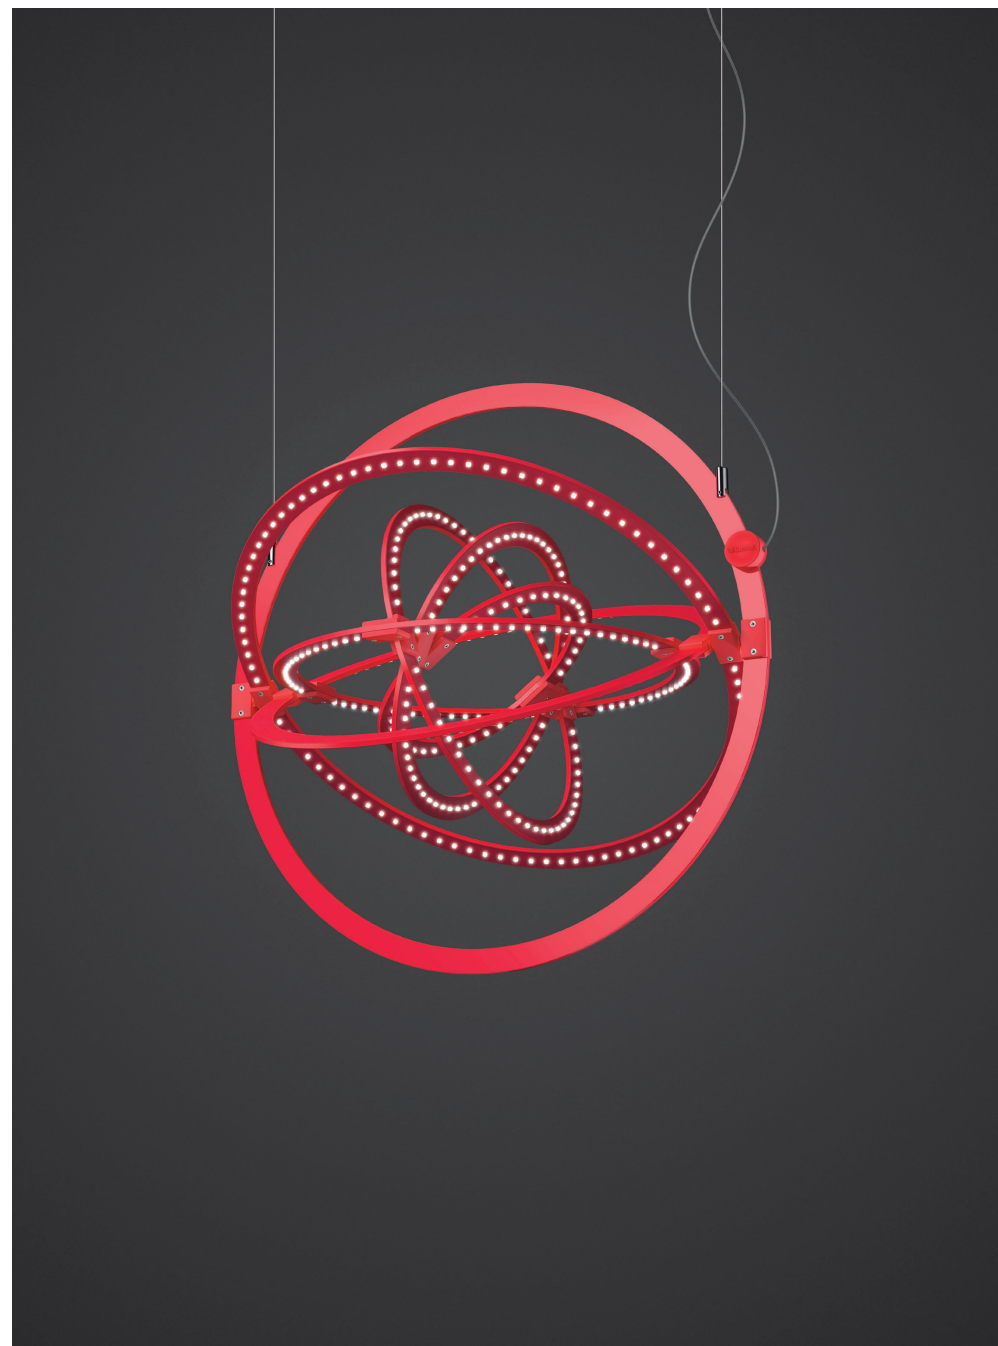

## FINISH

-  polished red (variant to RAL3020)
-  polished white (variant to RAL9003)
